TODAY & TOMORROW

FEBRUARY 15-28, 1986

ADDRESS CORRECTION REQUESTED **RUSH — TIME DATED**

The loss of a loved one can be devastating, and for some people the feeling of being unable to cope lasts for many months or even years.

The UCSF Stress and Anxiety Clinic at LPPI offers treatment to help people work out their grief and adapt to the implications of the traumatic event.

Up to 20 weekly sessions of individual psychotherapy are offered to those who have experienced the loss of a loved one within four months to three years ago. Fees are assessed on a sliding scale basis.

Interested persons should call Elizabeth Rutzick weekdays, x67513 or x67510.

Applications are being accepted for all UCSF RNs who do not have critical care experience but are interested in fulltime critical care positions in either adult or pediatric units on campus. Applicants must be willing to commit to an extensive eight-week orientation program, which will include formal classes, independent study and clinical rotations. The course will begin on June 16, 1986.

Successful candidates will be expected to work for a minimum of one year in a UCSF critical care unit. Qualifications include:

- recommendation from head nurse or immediate supervisor,
- satisfactory performance evaluation,
- minimum of one year of recent acute care experience.

Interested candidates should pick up an application packet from Lynda Purves in the Nursing Office, M 185. Completed applications and letters of recommendation must be returned to Purves by Monday, March 3.

DEADLINE

Deadline for the next issue of *Today & Tomorrow*, covering the time period Mar. 1-14, will be **Tuesday, Feb. 18, 11 a.m.** Please send your copy to Allen Balderson, News & Public Information Services, 532 Parnassus Ave., Rm. 300, x61541 or x62557.

The UCSF Surplus Department has the following items available to the campus community and the general public. For information on individual items contact the person listed below:

- IBM 4341-11 CPU, IBM 3370 disk drives. Call Luellen Byrum-Reed, x64547.
- Model D500 Durrum amino analyzer with automatic sample injection and fluorometric detection. Call Warren Lubich, x63084.
- Vydec 1800 word processor and printer. Call Alice Ann Morrow, x63907.
- Diablo 630 R 155 API printer with continuous feed, acoustical sound hood and stand. Call Pam or Barbara, x64315 or x64306.
- Zenith 19 display terminals (includes keyboards). Call Marlene Marcal, x61211.
- DEC personal computer, DTC Daisy wheel printer with attached keyboard (monitor not included). Call Sherilyn Evans, x64325.
- IBM System 6 displaywriter. Call Bill Feinstein, x64121.
- Tektronix 4006-1 computer display terminal, Tektronix 4610 hard copy unit. Call Vojteck Licko, x61350.
- Kennedy Model 9300 tape transport, DEC DMC-11 M8200-M8202 networking boardset, DEC RKO7 disk drive, Systems Industries 9400 Maa Bus disk controller, Systems Industries disk drives. Call John Sedat, x64156 or Mel Jones, x64609.
- 1982 Ford LTD station wagons. UC assumes no responsibility. Available only by submitting a bid to UCSF Surplus Department, 612 Forbes Blvd., South San Francisco, CA 94080 no later than Friday, February 21. Call Francisco Ruvalcaba, x61271.
- IBM automatic memory typewriter, IBM System 6/OS6, Forma glassware washer Model 88C5, Forma glassware dryer Model 6097, computer tables, storage cabinet. Call Surplus Department, x61271, x25.
- Philips electron microscope, EM300. Call Mei Lie Wong, x64441.

A major press conference was held on campus last week to officially announce the School of Nursing's new organized research unit—the Institute for Health and Aging.

At the conference, Carroll Estes, PhD, director of the new Institute and chair of the School's Department of Social and Behavioral Sciences, reported that changes in Medicare regulations and other cost containment measures are forcing hospitals to move older patients out "sicker and quicker"—creating a chain reaction in which the newly-discharged are displacing chronically ill elderly in nursing homes and home health programs.

The new competition mode, medical cost-cutting measures and Medicare's diagnosis-related group (DRG) program are pressing hospitals to release patients at a time when they may still need care. These patients are going to nursing homes, home health programs and outpatient community agencies that are altering their services to accommodate this sicker clientele.

In turn, the chronically-ill elderly, who previously benefitted from community services, including day care and nutrition programs, are losing out.

Estes' conclusions are based on a three-year study of the impact on community services of policy changes since 1981.

Other participants at the conference were Linda Bergthold, PhD, project director of a new Institute study on the impact of Medicare policy (DRGs) on community services, who discussed some of the study's early findings; Hadley Hall, executive director of the Visiting Nurse Association of San Francisco—the parent corporation of the Hospice of San Francisco and the San Francisco Home Health Service; and elderly people who personally have been affected by cuts in community services.

The Cancer Research Institute at UCSF has been named one of six centers to begin treating advanced cancer patients with interleukin-2, the National Cancer Institute has announced.

Pioneered at NCI, the treatment until now has been available only at the National Institutes of Health's Clinical Center. Because of its complexity and expense, doctors have been able to treat only four to eight patients a month.

Anthony Rayner, MD, UCSF assistant professor of surgery and surgical oncologist at the Cancer Research Institute, will be UCSF's principal investigator. Coinvestigators are Edwin Cadman, professor of medicine and director of the CRI; and Charles Linker, MD, assistant clinical professor of medicine.

The study will be limited to three kinds of cancer—melanoma, renal and colon—which showed response in the preliminary NCI study reported in December 1985. Approximately 50 patients with advanced cancers will receive the treatment at each center in the coming year.

Treatment of patients at UCSF probably will begin in April, Rayner said. He emphasized that prospective study patients must be referred by their physicians, who can call 415/476-4765 for details.

UCSF researchers and administrators continue their work on reducing the hysteria surrounding AIDS. Recent efforts include:

- A tape is available of last week's campus symposium on AIDS transmission and issues related to the health-care work place. Geared to staff employees, the symposium included a presentation by Julie Gerberding, MD, chief medical resident at SFGH and principal investigator for a study on AIDS transmission and health-care workers; a film made at SFGH and a slide presentation. To schedule a time to view the tape, call x65186.
- A small group of researchers convened at UCSF late last month to prepare a "white paper" on the state of the art of

FAMILY PRACTICE GRAND ROUNDS. Carr Aud. 12:30-1:30 p.m.

FRIDAY 28

MAXILLOFACIAL TRAUMA CONFERENCE. Rm. 4H40. 7 a.m.

HELP ELIMINATE SCHEDULING CONFLICTS

In order to help the campus avoid conflicts in scheduling important events, News & Public Information Services Department has a new computerized calendar. It is suggested that faculty, students & staff call x61541 when they are planning an event to make sure nothing has been scheduled for that date. Please note that in order to reserve campus conference rooms and auditoriums, it is still necessary to call Millberry Union at x62571, Room Reservations at x64436, Faculty/Alumni House at x64723, Laurel Heights at x68100 or the individual school or department.

* — Open to the public

MOBILE MAMMOGRAPHY SCREENING SCHEDULE

Women now can have low-cost mammograms—x-rays to screen for breast cancer—from a mobile van that travels to convenient shopping or downtown locations in San Francisco and remains for a week at a time.

Women need the approval of their physicians to have the mammogram. The procedure takes approximately 20 minutes and costs only $40. To make an appointment call 990-0459 between 9 a.m. and 3:30 p.m.

The van will be at the following locations for the next two weeks:

Feb. 18-21: Irving St. between 25th & 26th Ave., across from the Sunset Super. (Mon. is a holiday).

Feb. 24-25: AT&T parking lot, Folsom & 4th St.

Feb. 26-28: Post between Webster & Fillmore.

WOMEN'S RESOURCE CENTER LECTURE: *Reclaiming the Goddess.* Starhawk, author, *The Spiritual Dance: A Rebirth of the Ancient Religion of the Great Goddess.* Toland Hall. Noon.*

PHARMACOLOGY SEMINAR: *Development of Liposome-Based Antitumor Therapy: In vitro Studies.* Robert Straubinger, CRI. S 1364. Noon.

PERINATAL MORBIDITY & MORTALITY CONFERENCE. M 666. Noon.

INTERNATIONAL FOLK DANCING: Led by Dean Linscott. No partner needed. Everyone welcome. MU Gym. 1-2:15 p.m.*

BIOCHEMISTRY/BIOPHYSICS SEMINAR: *RNA Localization & Transcription in Early Xenopus Development.* Doug Melton, Biochem. & Mol. Bio., Harvard. HSW 302. 4 p.m.

CAL READING GROUP MEETING: *Joseph Conrad's* Nostromo. MU 238. 5:45 p.m. Call Carol, x62252.*

OUTDOORS UNLIMITED EVENT: *Adventure Film Society Show & Meeting.* MU 238. 7 p.m. Call x62078.*

26 WEDNESDAY

HAND SURGERY CONFERENCE: Journal Club. S 214. 7-8 a.m.

MULTIDISCIPLINARY TUMOR BOARD: L 34. 7:30 a.m. Call Genny Buehler, coordinator, x1662.

NUCLEAR MEDICINE CONFERENCE: *Positron Imaging.* Wayne Webster, Scanditronix Corp. L 340. 8 a.m.

DERMATOLOGY GRAND ROUNDS: *AIDS Update.* Marcus Conant, Derm. HSW 301. 8-9 a.m.

ENDOCRINE GRAND ROUNDS: *Advanced Nonenzymatic Glycosylation*

FREE COMMUNITY HEALTH TALK FEB 26

Developments in Cosmetic Dentistry. Alton M. Lacy, Restor. Dent. Toland Hall. 7:30-9 p.m. Free parking available. Call x63206.*

27 THURSDAY

OPHTHALMOLOGY GRAND ROUNDS: *Pneumatic Retinopexy: The First 100 Cases.* George Hilton, Oph. S 214. 9:15 a.m. Preceded by Patient Exams & Discussions: *Retina.* Alexander Irvine, Oph. 8 a.m.

PEDIATRIC GRAND ROUNDS. S 664. 8:30 a.m.

NEUROLOGY GRAND ROUNDS: *The Indomethacin-Responsive Headache Syndrome.* Neil H. Raskin, Neuro. S 664. 11 a.m.-12:05 p.m.

PEDIATRIC TUMOR BOARD. L 34. 11 a.m.-12:15 p.m.

PSYCHIATRY GRAND ROUNDS: *New Perspectives on Neuropsychiatry.* Michael R. Trimble, Psych. Med. & Behav. Neuro., Inst. Neuro., London. HSW 301. 11 a.m.-12:30 p.m.

PHYSICAL THERAPY OPEN HOUSE FEB 27

It's More Than You Think. To include demonstrations on correct sitting posture, proper stretching for athletes and patient therapy techniques. L 123. 11:30 a.m.-2:30 p.m. Call Margaret Duffy, x61716.*

UCSF/MOUNT ZION GERIATRIC GRAND ROUNDS: *Stroke Rehabilitation.* Graham P. Mulley, St. James's U Hosp., England. Herbst Hall, Mount Zion. Noon.

HISTORICAL PERSPECTIVES IN MEDICINE SEMINAR SERIES: *Human Experimentation: Louis Pasteur & Vaccination.* Guenter B. Risse, Hist. & Phil. of Hlth. Sci. Followed by the film: *Certain Death.* HSW 302. Noon-1 p.m.

NEURO-ONCOLOGY CONFERENCE. L 34. 12:30-2 p.m.

COMBINED HEMATOLOGY ROUNDS. M 1296. 1:30-2:30 p.m.

PROCTOR FOUNDATION RESEARCH SEMINAR. E.C. Proctor Library, S 318. 3 p.m.

NEUROBIOLOGY SEMINAR: *Protein Kinases & the Regulation of Neuronal Excitability.* Leonard Kaczmarek, Pharmacol., Yale. HSW 300. 4 p.m.

LABORATORY OF RADIOBIOLOGY & ENVIRONMENTAL HEALTH SEMINAR: *Structural Changes in DNA Containing Photodimers.* Shashidhar Rao, Pharm. Chem. LR 213. 4 p.m.

ORTHOPAEDIC SURGERY CLINICAL GRAND ROUNDS. A 630. 4 p.m.

NEURORADIOLOGY GRAND ROUNDS. HSW 303. 4-5 p.m.

MEDICINE/SURGERY ADULT CARDIAC CATHETERIZATION CONFERENCE. L 1161. 4-6 p.m.

PRIMARY CARE GRAND ROUNDS: *Allergy: New Mechanisms & Treatment.*

PATHS OF HEALING & WHOLENESS SEMINAR: *Rebirthing as a Tool for Healing.* Nancy Duffy. N 517. Noon-1 p.m.

CHILD DAY-CARE LECTURE FEB 28

SCHOOL OF NURSING SECOND ANNUAL LECTURE ON CHILD DAY-CARE: Congressman George Miller, first chair, House Select Committee on Children, Youth & Families. Toland Hall. 4 p.m. Reception to follow at the Child Care/Study Center. Call Brenda Roberts, x64578.

TWILIGHT CONCERT FEB 28

Flowing Stream Ensemble. A special musical celebration of the Chinese New Year. UCSF students & MU members $3, general $4. MU lounges. Reception 5 p.m., concert 5:45-7 p.m. Call x62542.*

COLE HALL CINEMA: *The Jagged Edge.* Children under 14 $1.50; UCSF students & MU members $2; general $2.50. Cole Hall. 6:30 & 8:45 p.m.*

DEVELOPMENT & TRAINING CLASSES

Conflict Management Workshop. Wed., Mar. 5.

Advanced Database Management Workshop. Thurs., Mar. 6.

Retirement Planning Workshop. Mon., Mar. 10-Apr. 21.

Financial Planning Seminars/Overview. Wed., Mar. 12.

CSFCH

TUESDAY 18

ORTHOPAEDIC SURGERY GRAND ROUNDS. Rm. 4H2. 8 a.m.

PEDIATRIC GRAND ROUNDS: *Neonatal Jaundice.* Walter Keller, Ped. *Phototherapy.* Antony McDonagh, Med. Carr Aud. 8:30-10 a.m.

MEDICINE GRAND ROUNDS: *CTC.* Harry Hollander, Med. Carr Aud. 11:30 a.m.

GI-MEDICINE/SURGERY/RADIOLOGY IMAGING CONFERENCE. Rm. 1X58. 3:30 p.m.

WEDNESDAY 19

GI-MEDICINE/SURGERY PATIENT CARE CONFERENCE. Rm. 4H2. 4:30 p.m.

THURSDAY 20

NEUROLOGY-NEUROSURGERY CONFERENCE. Rm. 4H2. 8 a.m.

TRAUMA CENTER CONFERENCE. Rm. 4H40. 8:30 a.m.

FRIDAY 21

NEWS BRIEFS

(AIDS continued)

the AIDS antibody test. The consensus conference was sponsored by the UCSF AIDS Clinical Research Center. The researchers showed general support with the current CDC recommendations.

• A UCSF AIDS researcher has called upon his colleagues in the medical profession to take a more active and influential role in combating the hysteria surrounding the fears of casual transmission of AIDS. In an editorial in the February 6 issue of the *New England Journal of Medicine*, Merle Sande, MD, chief of medicine at SFGH, said that "the picture is clear . . . the AIDS virus is spread sexually, by the injection of contaminated blood and vertically from mother to fetus. Other modes of transmission are extremely rare."

Meantime, the University Task Force on AIDS is accepting applications from faculty members for individual AIDS research grants.

The proposed research may involve any of the basic or clinical disciplines relevant to the problems of AIDS. Awards are contingent upon receipt of a specific allocation of state funds to the University.

Application forms and more information are available from the Contracts and Grants Office, 145 Irving Street, x62977. Applications must be received in the Task Force Office, 764 University Hall, Berkeley, CA 94720, by Monday, March 3, 5 p.m. All late applications will be returned.

The security shuttle which operates between campus and the Kezar Stadium parking lot has extended hours. The new morning hours are from 5 to 9 a.m. Evening hours of 5 to 9 p.m. remain the same. For information on all campus security shuttles call x61414.

Members of the campus community are urged to use the box numbers listed in the new UCSF telephone directory in place of room locations when addressing campus mail. Over the next several months, the UCSF Mailroom hopes to use the new box numbers exclusively for campus mailing purposes.

Teenagers with substance abuse problems will have a new place to go for help beginning in March. The UCSF Adolescent Substance Abuse and Families Project has received a $360,000 grant from the National Institute of Drug Abuse to conduct a study and provide a treatment and prevention program for teenagers and their families.

Howard Liddle, EdD, director of the Behavioral Science Program at SFGH, and UCSF lecturer in family and community medicine, will direct the project. Two clinics will be opened in March—one at UCSF and one at SFGH, said Liddle. Services also will be provided in Mountain View, Petaluma and Santa Rosa, with more locations to be added in the fall.

The program will be open to adolescents between the ages of 13 and 19 who have a substance abuse problem and have at least one parent and one younger sibling willing to participate.

Persons interested in more information about the clinics and the treatment program should call Ken Parker, PhD, research coordinator, or Niobe Way, assistant research coordinator, at 821-8610.

The new Public Health Service Policy on Humane Care and Use of Laboratory Animals became effective January 1. All UCSF investigators, deans, directors and chairs are reminded that the new policy requires that grant applications, including noncompetitive continuations, must contain the following information on the proposed use of laboratory animals:

• identification of the species and approximate number of animals to be used;
• rationale for involving animals and the appropriateness of the species;
• assurance that discomfort and injury to animals will be limited to that which is unavoidable in the conduct of scientifically valuable research, and that analgesic, anesthetic and tranquilizing drugs will be used where indicated and appropriate to minimize discomfort and pain to animals;
• a description of any euthanasia method to be used.

In addition to the above information, two copies each of the approved protocol and the approval letter from the Committee on Animal Research must be attached to the Contracts and Grants approval form.

Michael Heymann, professor of pediatrics, physiology, ob/gyn and reproductive sciences, is the new chair of the Committee on Animal Research.

For further information call x62197.

The campus community is invited to submit nominations for two major awards—the Chancellor's Award for Exceptional University Service and the Chancellor's Award for Public Service. Both awards will be presented on Founders Day, April 3.

• The Chancellor's Award for Exceptional University Service recognizes long-term staff employees who have consistently performed in their university positions at a level beyond what is ordinarily expected. To be eligible staff employees must have been at the top of their salary range since July 1, 1980 or before, be nominated by their supervisor and endorsed by their department head, not have received this award in the last three years and not have received the 1985 Special Performance Award. Nomination forms are to be returned to Pat Duffy, Box 0986, 1310 Third Avenue, by Friday, February 28.

• UCSF faculty, students and staff who have performed outstanding public service to the campus and/or to the community at large are eligible for the Chancellor's Award for Public Service. Three awards are made each year—two of which can be designated the "Thomas N. Burbridge" and the "Edison Uno" Public Service Awards.

Candidates for all of the awards should demonstrate outstanding public service beyond the scope of their normal job duties. Candidates for the Burbridge Award should demonstrate particular contributions to equal education and employment opportunity and social justice and should reflect the impact made by Burbridge, an international humanitarian. Uno candidates should reflect his personal involvement in a minimum of two unrelated public service activities within established social, political and civic groups to bring about social change.

Nominations must be received in the Chancellor's Office, Room S 126 by Monday, March 3.

Rudi Schmid, MD, dean of the School of Medicine, hosted 95 members of the National Academy of Sciences at its annual Western Regional Roundtable, January 31, at UCSF-Laurel Heights. It was the first time the annual meeting was held in San Francisco. Leading researchers in the western US discussed their work and the future course of the NAS.

The Faculty Wives will meet on Wednesday, March 5, at 10:30 a.m. at the Faculty/Alumni House. Personal image consultant Barbara Wellbeloved will discuss "The ABCs of Dressing." Luncheon will follow. For further information call Marjorie Campagna-Pinto, 921-6646.

The University has turned over the management of the Millberry Union Faculty Club, Deli and Cafeteria to Edible Affairs, the private corporation that also manages the Courtyard Cafe in the School of Nursing building. Millberry Union Food Services will cease operation on Thursday, February 20.

The Millberry Deli will be closed Monday and Tuesday, February 24 and 25, and the Millberry Cafeteria, from Monday, February 24 to Friday, March 14, for renovations. The Faculty Club will continue service without interruption.

Edible Affairs also plans to provide the campus with an expanded catering service once the Millberry Union operations have been established, said Ruby R. Freeman, director of Student Business Services.

Seven international scholars have been selected to do research at UCSF under the Visiting Fulbright Scholars Program. They are:

• Anders B. Jonzon, physician, University Hospital, Uppsala, Sweden, working with John Coleridge, associate director, CVRI, on the regulation of breathing in neonatal intensive care;
• Philip X. Joris, assistant, Department of Medicine, University of Antwerp, Belgium, working with Michael Merzenich, professor, otolaryngology and Coleman Memorial Lab, on oto-neurophysiology;
• Karl Anneren, pediatrician, University Hospital, Uppsala, Sweden, working with Charles Epstein, professor, pediatrics, biochemistry and biophysics, on genes and Down's syndrome;
• Dolores Gonzalez Pacanowska, assistant teacher, biochemistry, University of Granada, Spain, working with John A. Watson, professor, biochemistry, on regulation of cholesterol metabolism in cultured cells;
• Tatjana Marotti, senior research assistant, experimental biology and medicine, Rudjer Boskovic Institute, Zagreb, Yugoslavia, working with Edward Goetzl, professor, medicine, and director, Division of Allergy and Immunology, on immunomodulatory substances accompanying tumor growth;
• Gera Neufeld, instructor, biological chemistry, Hebrew University of Jerusalem, Israel, working with Denis Gospodarowicz, professor, medicine, Cancer Research Institute and ophthalmology, on targeting mechanisms of metastatic cells to various body sites;
• Francisco Rodriguez Valera, assistant professor, microbiology, University of Alicante, Spain, working with Herbert Boyer, professor, biochemistry, on spontaneous phenotypic variation in halobacteria.

The photography of Jay-Gordon Levinson will be on display for the month of March at the Faculty/Alumni House, with a reception for the artist on Friday, March 7, from 4:30 to 7 p.m.

Levinson's photographs, all black and white, are studies of both natural and manmade structures. A photographer for the last 10 years, he has had several shows in the Bay Area, including the Expose Gallery in San Francisco.

HONORS & AWARDS

David R. Cox, professor, pediatrics, biochemistry/biophysics: Received the Ross Research Award, given to a young investigator by the Western Society for Pediatric Research at its annual meeting Feb. 5.

Jay R. Salzman, assistant clinical professor, stomatology, School of Dentistry: Elected president, California Society of Periodontists.

Benjamin Libet, professor emeritus, physiology: Invited to participate in the Neurosciences Institute's Brain-Mind Problem Conference in New York, Mar. 6-7.

Paul Scholten, associate clinical professor, ob/gyn: Reappointed to a second three-year term on the State Advisory Board on Alcohol-Related Problems by Assembly Speaker Willie Brown.

PUBLICATIONS

Joe Graedon, assistant clinical professor, clinical pharmacy: Author, *The People's Pharmacy* (St. Martin's Press, NY, 1985).

Richard L. Sweet, professor & vice chair, ob/gyn: Co-author, *Infectious Diseases of the Female Genital Tract* (Williams & Wilkins, Baltimore, 1985).

A.L. Burlingame, professor, chemistry & pharmaceutical chemistry; director, Mass Spectrometry Facility, School of Pharmacy; **Neal Castagnoli, Jr.,** professor, chemistry & pharmaceutical chemistry: Editors, *Mass Spectrometry in the Health & Life Sciences* (Elsevier, Amsterdam, 1985). Based on the proceedings of an international symposium held in San Francisco, Sept. 1984.

Charles B. Higgins, professor & chair, Magnetic Resonance Imaging Section, Department of Radiology: Contributing author, *Radiology of the Heart: Cardiac Imaging in Infants, Children and Adults* (Springer-Verlag, NY, 1985).

S. William Levy, clinical professor, dermatology: Contributing author, *The Skin in Diabetes* (Lea & Febiger, Phila., 1986).

Douglas Schmucker, associate professor, anatomy; assistant chief, cell biology & aging, VAMC: Elected president-elect, American Aging Association.

Michael Merzenich, professor, otolaryngology, physiology & Coleman Memorial Lab: Appointed associate editor, *The Journal of Neuroscience.*

Robert B. Aird, professor emeritus, neurology: Invited to give the annual Wilder Penfield Memorial Lecture before a joint medical meeting of the Western Electroencephalographic Society & Western Institute on Epilepsy in Palm Springs, Feb. 28.

APPOINTMENTS

Nick A. Kanas: Acting chief, psychiatry service, VAMC. A psychiatry resident at UCSF from 1972-75, he returned in 1977 as assistant professor, psychiatry and chief of the Substance Abuse Unit. He became associate professor and assistant chief, VAMC psychiatry service in 1978. He replaces I. Charles Kaufman, who retired December 1985.

IN MEMORIAM

Frances A. Torrey, clinical professor emeritus, dermatology. A 1923 UCSF graduate, she retired in 1967 after nearly 50 years with UCSF, including 40 years as head of the Dermatology Clinic. She trained scores of doctors and established the Veneral Diseases, Visible Tumors and Angioma Clinics. In 1975, the Dermatology Clinic was named in her honor.

Samuel J. Holmes, '25 School of Medicine. A Bay Area pharmacist for some 25 years, he served in the Navy during World War II and was instrumental in establishing the first Japanese prisoner of war hospital on Okinawa.

Alvin Anderson. He came to UCSF in 1981 as an administrative assistant in the School of Nursing Dean's Office.

Steven G.A. Richards, staff research associate, laboratory medicine, since 1985.

Robin E. Eal, senior vocational nurse, Ambulatory Care Center, since 1984.

Eleven specialists, including four from UCSF, will present the most current information on how to handle cancer-related pain on Saturday, March 22, in the auditorium at UCSF-Laurel Heights, 3333 California Street.

UCSF presentations will include:

• "Pain: Neuroanatomy-Neurophysiology-Neuropharmacology." Howard L. Fields, MD, PhD, professor, neurology and physiology;
• "Psychosocial Issues of Cancer Pain." Inge Corless, RN, PhD, clinical nurse scholar, Robert Wood Johnson Foundation;
• "Assessment of the Cancer Pain Experience." Diana J. Wilkie, MS, RN, doctoral student, School of Nursing; coordinator, Mount Zion Cancer Pain Management Program;
• "Neurological Approaches to Cancer Pain Management." Yoshio Hosobuchi, MD, professor, neurosurgery.

The symposium is cosponsored by the UCSF Cancer Research Institute and the Regional Cancer Foundation. For registration information call 415/775-9956. Registration deadline is Friday, March 7.
